There is a yearly membership fee payable in monthly installments to become a patient in my practice if you are a Medicare patient. You will sign a contract stipulating that you agree to pay the membership fee and will not seek reimbursement from Medicare for that membership fee. Please call/E-mail me for the most current membership fee.

At the start of each visit, you would pay me the limiting charge (bolded column 4), and I will file a claim for you. Medicare then reimburses you and your final out of pocket total is bolded column 5.
